CONCEPT TO COMMISSIONING
PLANNERS & PARTNERS FOR SUSTAINABLE GROWTH

ABOUT US

At **AG Group**, we value the importance of sustainable development for a resilient future. We have strived towards creating a sustainable future by putting our ingenuity forward for a better today & tomorrow. Our future-ready mindset distinctively positions us to capitalize on transforming market trends. We apply our State-of-the-art expertise to develop sustainable future-proof cities and environment.

Our team of experts work closely with the clients to develop specialized sustainable solutions that are tailored to their specific needs and goals across various sectors with our diverse range of services. Our data, market insights and overseas collaborations provide robust strategies to achieve results that bring positive impact. Despite the forever evolving landscape, our commitment to expand the horizon towards a sustainable future remains resolute.

AG was established in 1998 as a solution provider company for golf and tourism industry. In 2017, we transformed ourselves into "AG Horizon Pvt Ltd".

INCEPTION

Our Head Office is located in Gurugram. Our branch offices are in New Delhi, Imphal, Hyderabad, Guwahati and Chennai.

OFFICE LOCATION

We have an outstanding relation with our prospective clients because we deliver better, faster & enduring outcomes.

CLIENT RELATIONSHIP

We work with ambitious, competent and qualified leaders across public and private sectors. They have an expertise in the global market too.

OUR TEAM

AG Horizon develops partnerships with leading organizations from across the globe to deliver breakthrough results.

ASSOCIATIONS

We feel proud to claim that we are swiftly moving towards our goal of completing projects amount to a valuation of USD one billion.

REACHING HEIGHTS

We as a team of experts are well-versed with the workings of government offices, bureaucrats and corporate world.

APPROACH

Our style of working aims to begin at the very basic grass-root levels and then steadily move upwards.

WORKING STYLE

We are one of the selected few consultancies that offer services right from the conceptualization of a project to its commissioning.

TRANSPORT

Trade, Commerce and Communication thrive and grow through transport. Our division of experts conceptualizes, develops, designs the project, including the completion and maintenance making it a comprehensive service.

Change is controlled and handled at its best, from traditional road, railway, and aviation transport and traffic management systems to non-conventional terrain-specific ropeway management and electric cars.

RAILWAY

AG's core team provides consulting services for capacity building, land reform monetization, infrastructure planning, and policy implementation. We promote railway transportation by enlisting private players and bringing them into the fold.

AVIATION

AG has in-house expertise that offers modern dynamic solutions to renovate existing facilities, improve user experience and connect hill terrain by developing STOL ports/helipads.

ROPEWAY

AG works with the client to help him prepare to present a funding case to ministries and funding agencies. We enlist the help of specialised firms to address the viability gap, operations and maintenance issues, and funding concerns.

ELECTRIC VEHICLE

We provide an integrated transportation solution with a focus on electric transportation systems. Our service begins with developing and advising the client on a clear strategy for reducing capital asset risk. Based on demand, we create a framework for electric vehicles (EV).

TRAFFIC MANAGEMENT

We offer a number of concepts, such as coordinating from a single Traffic Control Centre (TCC) and integrating multiple local TCCs. Our case studies and reports take into account the specifics of work zones, emergency response, and weather management.

ENGINEERING

Engineering is one of the key drivers of a country's growth. So, the potential to turn data into action is created by our team of experts. Our engineering services cover Textile, IT & Telecom, Power & Renewable energy and Infrastructure, to core engineering sectors. By incorporating the latest technology, global models and case studies; our engineering desk gives the needed push to propel and update the project into Mega projects.

TEXTILE

In this sector, AG's focus is on assisting corporations and state governments in developing policies. Strategy for reaping the benefits of skill development programmes in the power loom, jute, silk, and wool industries, among others.

IT & TELECOM

AG Digital believes in not only designing and delivering cutting-edge business intelligence analytics, IOT, and smart cities solutions, but also in assisting you in achieving your short and long-term digital goals.

POWER & RENEWABLE ENERGY

AG is responsible for the overall planning and execution of large and small power projects. We cover everything from solar parks to grid management services.

INFRASTRUCTURE: HIGHWAY/TUNNELS

AG offers a variety of services for roads, highways, industrial corridors, bridges, industrial parks, townships, office and commercial buildings, shopping malls, institutional buildings, master plans, and road maps, among other things.

ENVIRONMENT

We work across diverse verticals of Environment viz Water, Irrigation, Agriculture, Animal Husbandry, and Horticulture & Forestry. AG develops environmentally responsible projects in these verticals by setting technological, financial and regulatory frameworks and parameters. We have delivered sizeable projects on complex terrain. There, environmental considerations are considered from the conceptual stage, and this is replicated in reports and executed.

WATER

AG offers customised and professional end-to-end solutions in water drawn, raw water pumping facility, water distribution, water harvesting system, wastewater treatment, zero effluent discharge system, flood control solutions, etc.

IRRIGATION

AG's role is to provide modern scientific water management solutions through customised irrigation systems, design planning and state infrastructure improvement plans.

AGRICULTURE

Agriculture is a priority for AG, which we promote with cutting-edge technology. We spread modern agricultural production techniques and scientific farming methods to increase crop yield and self-sufficiency among our farmers.

ANIMAL HUSBANDRY

AG provides consulting services to help identify major issues related to the development of the Animal Husbandry sector, as well as assisting investors, ministries and departments in developing a road map, action plan and sector development strategies.

HORTICULTURE & FORESTRY

Landscaping, Plantation, Floriculture, Agri Projects, Biotechnology, and the development of bio-fuel nurseries are all part of AG horticulture activity. The company's goal is to use science and technology to improve production.

SOCIAL & PUBLIC SECTOR

AG Group has strong roots in the Public and Social sectors of Sports, Tourism, Education and Health. We have developed our own pre-project, hand holding procedures to conceptualize & deliver any project in the public and social sector. AG fulfills the requirement of an experienced company and a team to provide an overall solution to prepare a comprehensive project report and master plan that will shape, organizational, economic and social facets of the society.

SPORTS

AG provides national and international game management organisations with comprehensive consulting and development services. Our unique understanding of sports and consumer passion allows us to develop strategies that help our clients stand out from the crowd.

TOURISM

AG plays an important role in tourism promotion by developing cutting-edge, one-of-a-kind mega projects and working on government of India schemes for the tourism department as a whole. We provide distinctive master plans and road maps to investors, governments, and others.

EDUCATION

AG provides customised training and educational opportunities. Our unique educational level-creation method is the process by which society intentionally transmits its accumulated knowledge, skills and values from one generation to the next. This level is accelerated by the use of AI, IoT and the cloud.

HEALTHCARE

AG has extensive experience in the planning of high-profile health infrastructure projects. AG provides feasibility studies, planning and design, project management, procurement and other services to hospitals and medical colleges, as well as assistance in the development of health policies and programmes.

SUSTAINABILITY

AG Horizon Pvt Ltd aspires to be an advisor on ESG, SDG, Carbon Credit & Climate Change. We are driving a wave of innovation and economic growth that protects the environment and supports sustainability with our clients. We assist them in identifying and leveraging climate innovation, as well as incorporating sustainability at scale into their operations and capturing the value they generate. We assist clients in transforming their businesses in preparation for the new decarbonized era.

ESG

AG helps creating inclusive work environment, developing community resilience, and influencing the larger ecosystem to act responsibly.

SERVICES

We provide a wide range of services, delivering best-in-class solutions, with each service division acting as a strategic business unit. With our strong experience of working with Central and State government, we provide support across key stages.

Project Research

Project Management Consultancy

Financial Advisory

Project Advisory

Transaction Advisory

Business Acceleration & Growth

PROJECT RESEARCH

Project research services intends to play a significant role in improving the functions of management systems in various economic sectors, for corporate and government entities. Our research team aims to assist clients in navigating the complicated landscape of policy in India and driving change inside their organisations.

Research & Analysis

Determine potential risk areas and a client's preferences and needs. The AG research team will map the policy-regulatory framework (central-state-local), identification, benchmarking, and analysis of problems.

We set and propose goals based on the SMART (Specific, Measurable, Action-oriented, Realistic and Time-bound) philosophy. Development and implementation of a strong and effective intervention approach on difficulties in order to align synergies with business plans.

Strategy

Advisory Services

We offer subject matter experts, former bureaucrats, industry veterans and consulting on interaction with the Central-State government with incentives and taxation advice.

AG believes in meaningful stakeholder engagement and identify the government programmes for collaboration and business expansion.

Government Relations & Development

Generate Employment

The project strengthens the capacity of national and local governments, non-governmental organizations, and local community organisations to manage future small-scale development projects that create jobs.

PROJECT ADVISORY

Our project advisory services ensure that projects are implemented and managed professionally, providing value to our clients. We help with project or programme planning, the implementation of appropriate governance structures, and the evaluation of project and process performance.

Visions & Framing Advice

A vision clarifies the project's purpose and eliminates confusion. Donor-funded development cooperation activities must be carried out in conjunction with, by, and for the private sector.

AG will define and create a high-level plan for realising the vision. Then we start working on a roadmap to capture and explain that vision and strategy.

Roadmap & Business Plans

Process Requirements

AG is capable of offering professional oversight of all new development areas throughout the process for mega projects and we endeavour to mitigate all project risks at all phases of the project.

The team can use project proposals to clarify, elaborate, organize, and further develop its initial notions. Our customized proposals serve a range of functions in the development of a compact programme.

Customized Proposals

Stakeholder Coordination

As an experienced consulting firm, we are well-versed in all regional laws and have perfected the knack of coordinating with both government and non-government organisations.

PROJECT MANAGEMENT CONSULTANCY

Our extensive experience in offering PMC services with customize management services to a wide range of industries and our investors for mega projects approved by regulatory bodies. A team of experts is assigned with a backup from the core management team.

Identify & Prepare Roadmap

During the initiation phase, an opportunity is identified, a project is developed, and a project team is appointed to build and deliver the solution to the customer. The roadmap assists in strategic decision-making for specifying and launching large projects.

Our strategic planning initiatives for identifying execution agencies in enhancing project profitability, lowering conversion costs, managing restricted resources, and delivering on schedule.

Identify Executing Agency

Stakeholder Coordination

As an experienced consulting firm, we are well-versed in all regional laws and have perfected the knack of coordinating with both government and non-government organisations.

We attempt to bring value to our clients' projects by participating in the design process and tracking all project-related KPIs to guarantee that the project stays within scope, budget, and timelines.

Project Monitoring

Handing Over & Commissioning

Through effective project handover and commissioning, our project management goal is to obtain stakeholder acceptance of the project result. The project will conclude with a post-project evaluation review.

TRANSACTION ADVISORY

Our transaction advisory services cover everything from identification to feasibility studies to financing options and project management. We have the privilege of working with the government, corporate & multi-lateral funding agencies viz. World Bank, Asian Developmental Bank, JICA, New Developmental Bank.

Conceptualisation & Planning

Project conceptualization is the preliminary stage. AG oversee and coordinate present and future local policies such as master plans, development regulations and public domain improvements.

AG Horizon creates advanced financial models to provide management with realistic predictions to aid in decision making. We conduct an unbiased investigation with approaches such as discounted cash flows, cost of capital, ROI, break-even and sensitivity analysis.

Financial Modelling

PPR & Detailed Project Report

The PPR (Preliminary Project Report) is the primary report used to develop the investment proposal. When an investment proposal is authorized, a detailed project report (DPR) is necessary to firm up the proposal for the capital cost.

We give enough information to explain the part of the works and present to tenderers the facts and information required to make a responsible tender, assuring the proper contractor selection.

Bid Management

Supervision & Management

Our Project Management services are designed to ensure effective supervision and management throughout the project life cycle.

FINANCIAL ADVISORY

We provide comprehensive financial advising services from concept to financial closing. Our ability to arrange financial sources and turn them into effective models, such as public-private partnerships that bring projects to fruition. We provide a broad range of financial services.

Survey and Planning

We provide clients with financial planning and cash flow modelling, funding application support, cost allocation, public financing, value capture, demand predictions, predicting revenue and expenditure models, pricing and fiscal analysis.

AG Horizon is a global business solution provider that offers advanced financial modelling consulting services, corporate financial analysis and business feasibility tests to corporations and government.

Financial Modelling

Central/State & MLFA funding

Various committees are formed to suggest development plans and projects available through MLFA funding for the use of investors in mega projects. The Finance Commission gives funding to states based on the recommendations.

We are ideally positioned to advise the public sector or their commercial partners to achieve their respective goals throughout the life of a PPP project. We provide practical advice on legal and regulatory issues to fit a PPP procurement.

PPP Investment

Financial Management

By offering continuous service, we assure effective financial management and efficient operation. We assist in the planning, organizing, monitoring of financial resources in order to meet organisational goals.

BUSINESS ACCELERATION & GROWTH

The success of a company's customer engagement strategy frequently determines its growth. We maintain balance by optimising your resources including money, men, materials, time and other intangible inputs. AG's team engages in client engagement activities by ensuring the growth of your business.

Audit Existing Processes

AG Horizon provides a complete project auditing approach to aid you in resuming failed projects. The project audit assesses the feasibility and performance by analysing cost, time and resources.

Our Transaction Structuring Advisory services enable us to identify other businesses and provides strategic solutions to our clients to a wide range of transactions, such as acquisitions, disinvestment, IPOs, PFI / PPP bids and so on.

Market Research

Planning & Execution

AG Horizon provides an effective framework for strategic planning by assisting in the formation of the vision, followed by an evaluation of the important effects on the operation and the significant difficulties.

The goal of the acquisition strategy is to increase market share, acquire more resources and ensure business expansion. Acquisition growth generates a sizable dividend for the acquired company's shareholders.

Acquisition Strategy

Set long-term goals

AG Horizon's capacity to define long-term goals and continually examine your company's future has a big impact on its performance and profitability. Our top leaders are all visionaries.

RESEARCH

GOVERNMENT POLICY REPORT

We publish policy report per month that covers three topics.

SECTOR REPORT

We publish sector report per month that covers three topics.

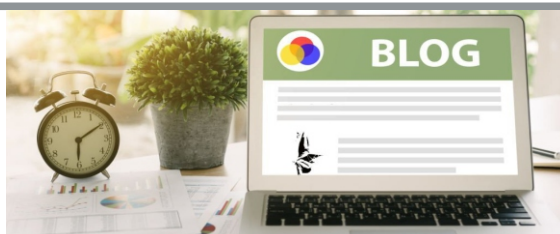

ANALYSIS REPORT

The reports are sector specific and covers one policy per month.

BLOGS

We cover two topics per month in New Horizon and Business blogs section.

NEWSLETTER

The AG Communiqué is published every quarter.

GOVERNMENT POLICY REPORTS

Government policies contain the things that are to be done in a certain way and the reason for doing in that direction. Government establish many policies that guide businesses.

AG experts conduct research and identify potential policy options. Then we rank and select the best ones based on the issue's urgency, keep it focused on the main issue and include visuals such as charts and graphs. We regularly evaluate government policies to ensure that we are up to speed on the latest regulations and technologies.
