Eminent's Insight

Introduction

Education is a fundamental requirement for every human being to achieve its full potential in life and become an integral part of an inclusive and equitable society. **The Constitution of India also gives the 'Right to Education for All' under Article 21-A for free and compulsory education** of satisfactory and equitable quality for the age group of 6-14 Years. India is striving towards its commitment to providing universal quality education access to achieve its ambitious economic, social, scientific, cultural, and national integration goals.

This need has developed the requirement for the continuous evolution of the Indian Education System since Independence. In 2020 to address the contemporary needs for knowledge and skills, the Government of India has come up with the New Education Policy (NEP) which brought freshness to an obsolete classroom education system with water-tight compartments among various streams such as Arts, Commerce, and Science, etc

Quick Facts About the Indian Education System

3.1%

of GDP India's public
spending on Education in
2021-22

8,997

AICTE approved technical
institutes in India in
2021-22

\$1.43BN

Upraised across 100 deals
in 2000

Source: <https://www.investindia.gov.in/sector/education>

This revamp was in line with India's ambition to provide high-quality education to the largest population concentration in the world and **achieve SDG Goal 4 by 2030**. It aims to reconfigure the learning trajectories with the active use of technology aids in teaching and learning to provide equitable and quality education with lifelong opportunities for learning for Indian citizens.

In the Amrit Kaal of the Indian economy, this gap between continued learning outcomes has been planned to bridge through early childhood care, promotion to research and development, skill training, vocational training, three language formula, on-the-job- training modules, digital learning platforms, etc under the NEP, 2020.

Sector Composition in the Indian Education System

Pre - School

Expected to grow by US \$735 million at 8% CAGR between 2021-25

Higher Education

State public universities with 38.1% share in FY20

Private Education

Private coaching sector annual revenue was US \$3.35 billion in 2020

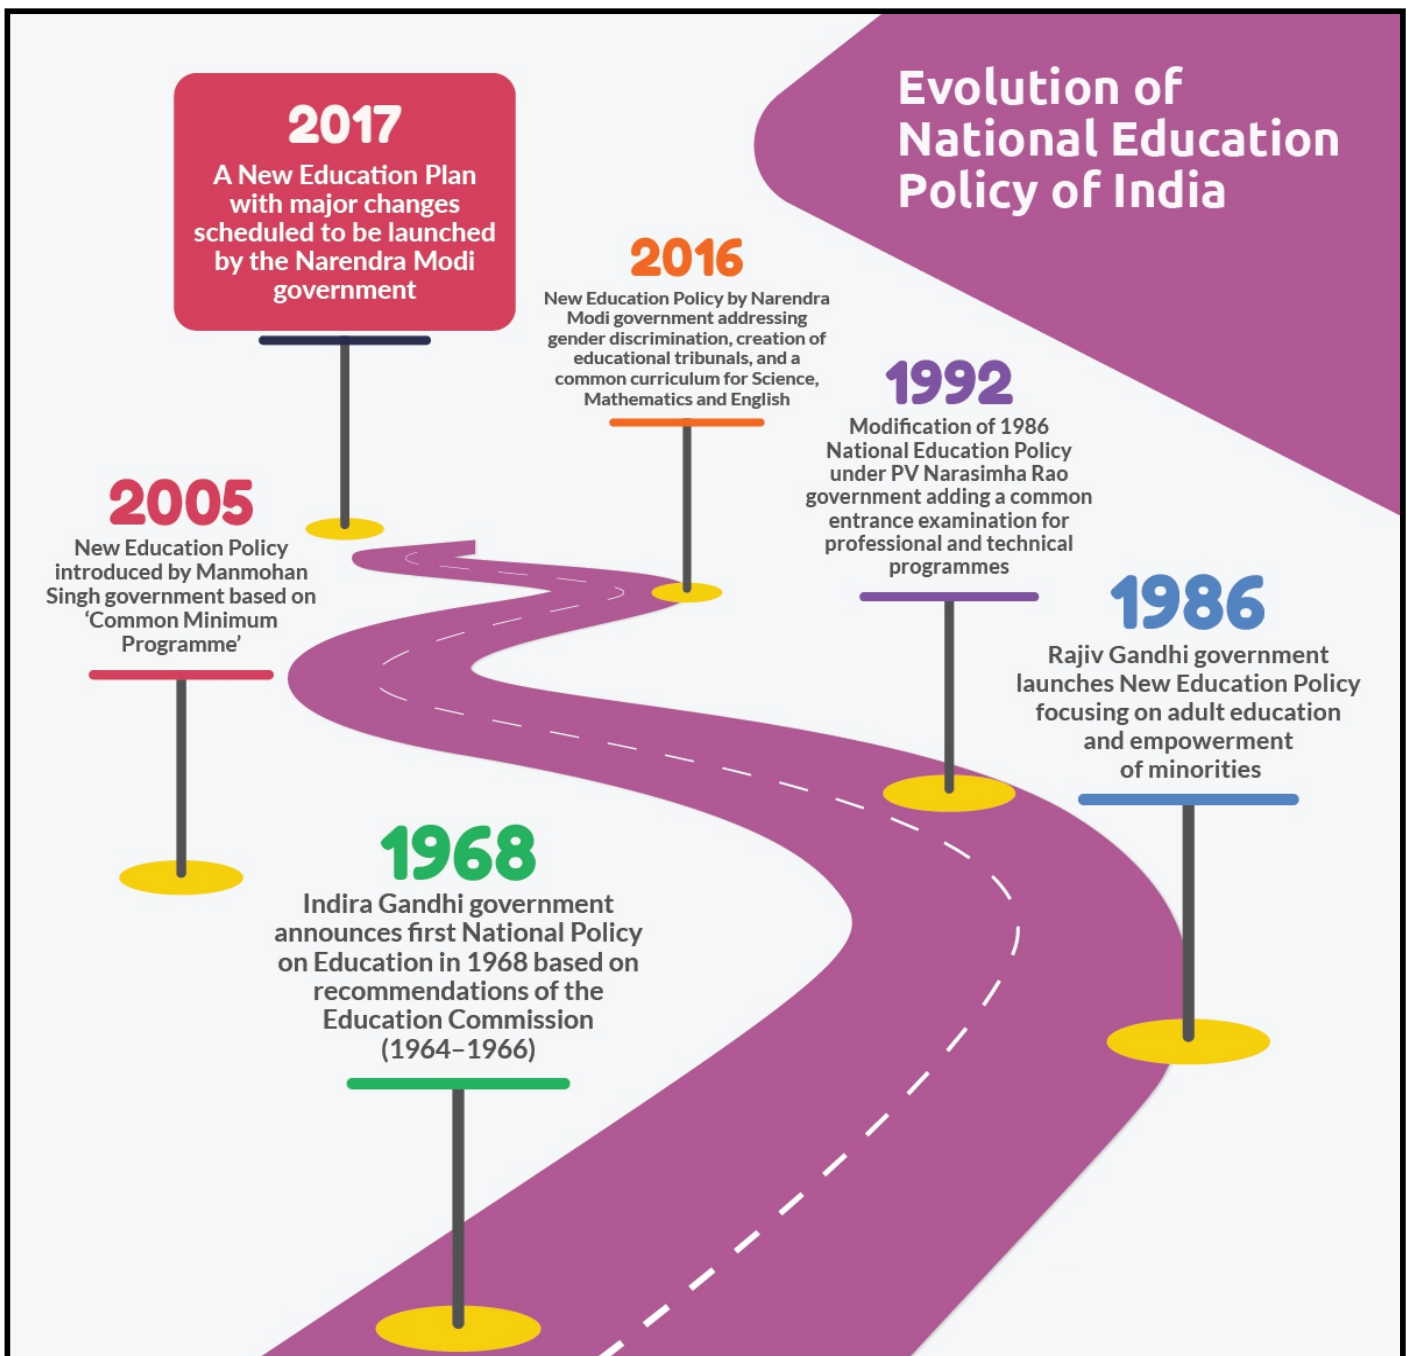

Source: <https://www.ibef.org/industry/education-sector-india/infographic>

Thus, to achieve the **US\$ 5 trillion economy target by 2047**, India has developed a **comprehensive approach to revamp the Indian education system with NEP 2020**. Here, the knowledge will be imparted to groom the personality of students at the early levels and inculcate foundational as well as cognitive capabilities to promote critical thinking and problem-solving skills. It will help to optimally use the demographic dividend advantage to achieve economic growth with aggressive policy support like the National Institute Ranking Framework, Internationalization of education, Skilling the future Workforce, etc. in the years to come.

Evolution of India's Education Policy

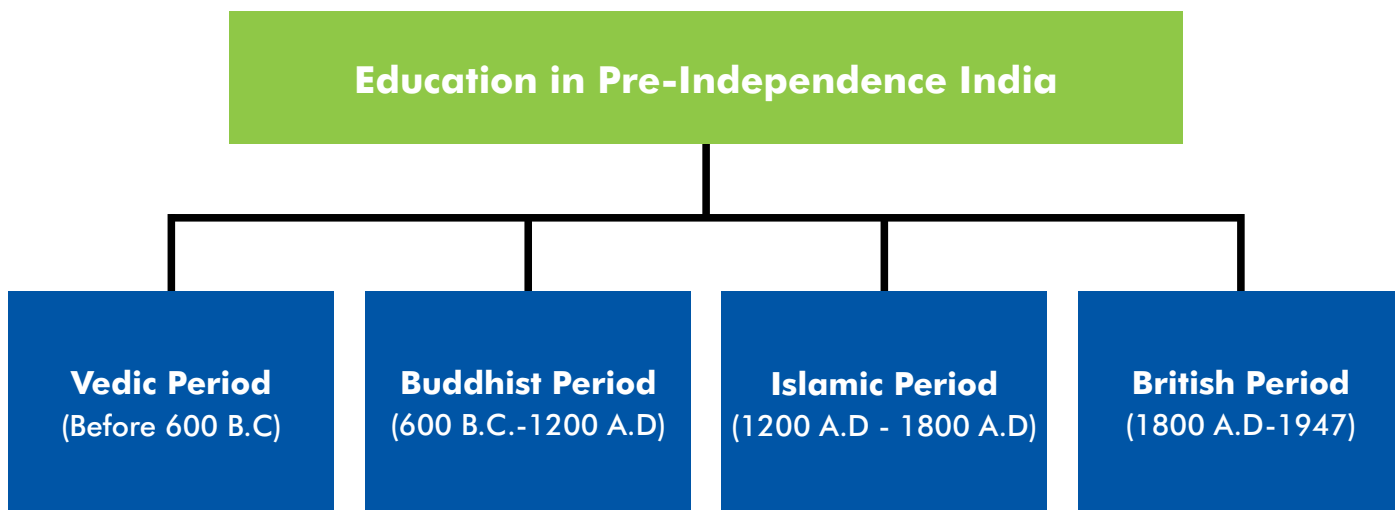

Education is fundamental to every human being. The role of education is to make individuals independent and build a solid socio-economic development. Educational policies are accountable for imparting quality education. India's educational system has a history of evolution since civilization existed which can be broadly understood in two segments based on its historical background i.e. pre-independence and post-independence.

Evolution of India's Education System Since Independence

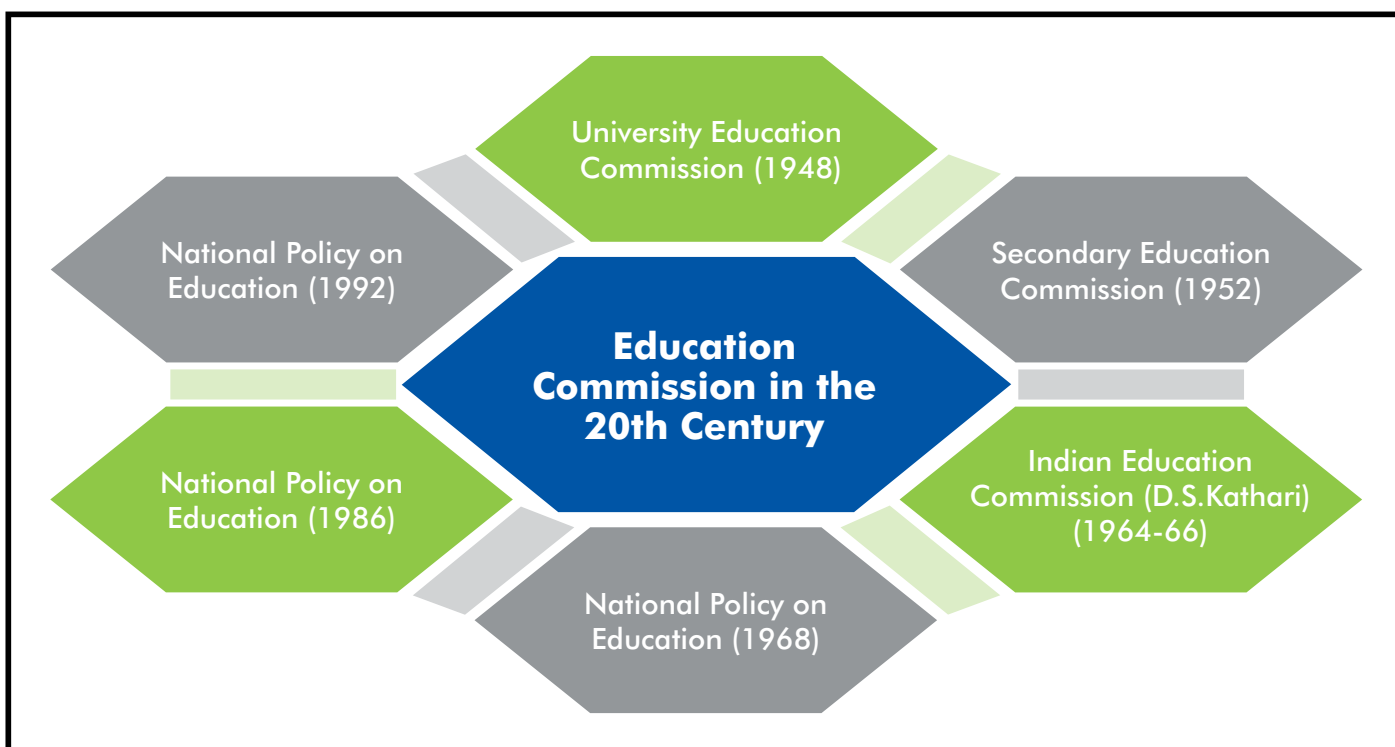

Source: <https://www.buddy4study.com/article/new-education-policy-2017-key-changes-and-developments-you-should-know>

The education policy in pre-independent India has a broad division in terms of pre-British time and British time. The pre-British era mainly includes the Vedic/post-Vedic and Mughal ages leading with India's traditional knowledge and beliefs. However, the major objective of education was religion in place of universal education to include people from different groups. At the beginning of the British era, Western Educational Policies played a significant role in promoting the universalization of education irrespective of caste or class.

Source: <http://www.ijstr.org/final-print/jan2020/Education-Of-India-In-Pre-independent-Yore.pdf>

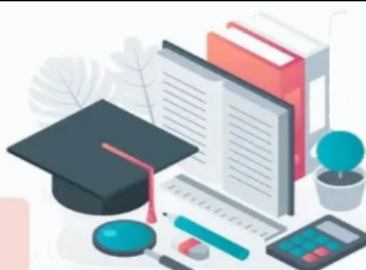

In independent India, the formulation of education policies is governed by the recommendations made by the Education Commission from time to time.

NEP 2020 is the latest addition to education policy based on equity, accountability, access, and quality.

NATIONAL EDUCATION POLICY 2020

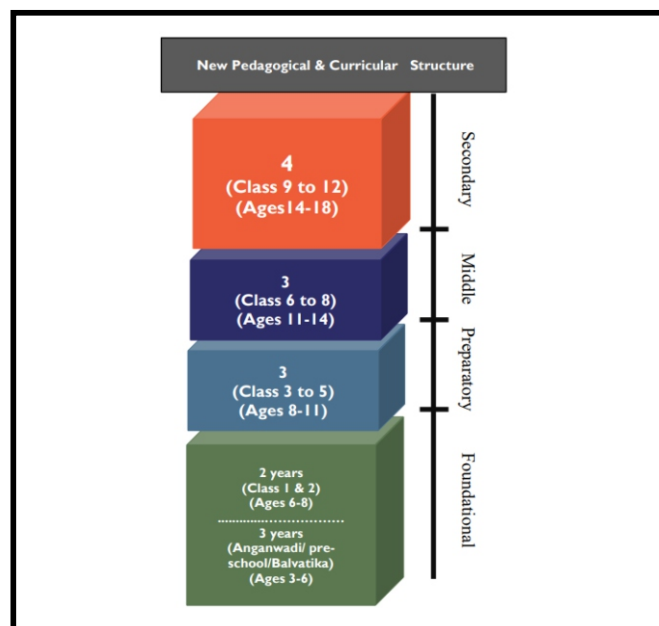

Universalization of Education from pre-school to secondary level with **100% GER in school education by 2030**

	<p>GER in higher education to be raised to 50% by 2035; 3.5 crore seats to be added in higher education</p> <p>No rigid separation between academic streams, extracurricular, vocational streams in schools</p>	<p>NEP 2020 will bring 2 crore out of school children back into the main stream</p> <p>Vocational Education to start from Class 6 with Internships</p>	 <p>New 5+3+3+4 school curriculum with 12 years of schooling and 3 years of Anganwadi/Pre-schooling</p> <p>Teaching upto at least Grade 5 to be in mother tongue/regional language</p>

Source: <https://myvoice.opindia.com/2020/08/national-education-policy-2020-a-policy-for-new-india/>

It has transformed the Indian education system at the core to develop a flexible mechanism for goal-oriented, and creative learners as well as educators.

Comparative Analysis: Old vs. New Education System

Source: https://www.education.gov.in/sites/upload_files/mhrd/files/NEP_Final_English_0.pdf

To effectively address, every aspect of learning, skilling, research, and innovation, the policy has formulated focused deliberations based on various suggestions provided by industry experts, educators, parents, and field practitioners.

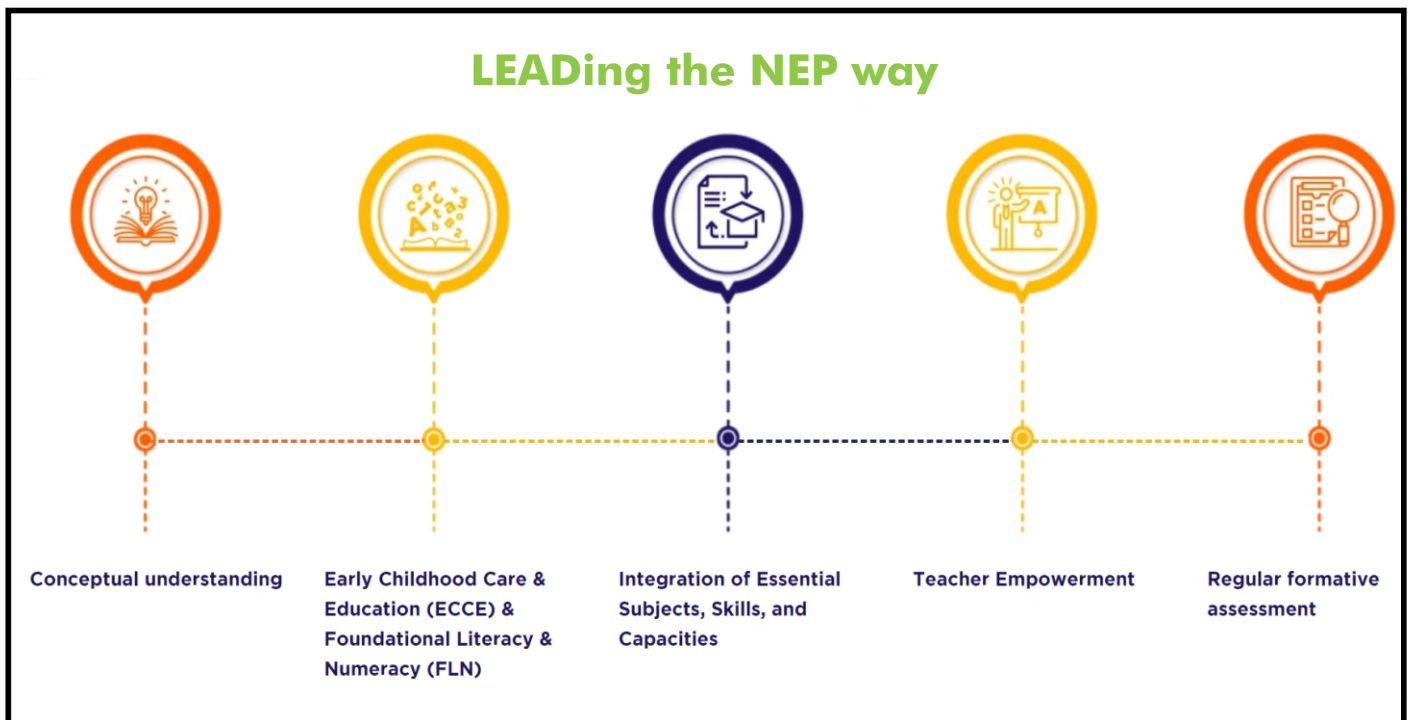

Source: <https://www.indcareer.com/news/the-government-of-india-developed-mechanisms-for-monitoring-quality-of-education/>

Education policy in India aims to have a framework where universal quality education can be imparted to every individual assuring socio-economic growth, and development at all levels.

Principles and Vision of NEP 2020

NEP 2020 has aimed to ignite creative imagination and critical thinking at all levels of learning right from early childhood care through Aanganwadis and bal Vatikas to Higher Education Institutes (HEIs). **It has set the target of achieving a 100% Gross Enrollment Ratio (GER) by 2030 from the preschool level to the secondary education level.** Whereas **GER target for Higher Education (including vocational education) has been set to 50% by 2035.**

Source: <https://leadschool.in/school-owner/national-education-policy-nep-2020/>

This higher enrolment target set under NEP 2020 will lead to a more contributing skilled workforce that will be equipped with the knowledge to excel in the 21st century such as technology 4.0, entrepreneurship, innovation, research, etc. **This will make the way for an inclusive, multi-lingual plural Indian society at large.** The fundamental principles followed to formulate the policy have ensured to strike the right balance of control and accountability at the core and developed a positive service environment for teachers and educators who are at the centre stage of this whole learning trajectory.

Fundamental Principles of NEP 2020

To implement these principles to the letter and spirit, the policy has envisioned the idea of transforming India as a knowledge hub of the globe. It is advocating to make use of deep-rooted Indian ethos and culture to regain its vibrancy and sustainable knowledge practices. The policy has been set to encourage private and community participation to enhance the quality of the public education system in India by attracting higher investment in the sector.

Vision of NEP 2020

01

To transform India into a vibrant knowledge society and global knowledge superpower through broad-based, flexible, multi disciplinary education Related to 21st century needs

02

Bring out the unique capabilities of each student

03

Promote critical thinking rather than rote learning, focus on learning instead of studying, encouragement to scientific temperament

04

Policy for 21st century India / Atmanirbhar Bharat

05

Integration of Global with Local

06

Instilling among learners a deep-rooted pride in being Indian and Developing knowledge, skills, and values that make them truly Global Citizens

Thus NEP, 2020 has developed a transformational shift in the curriculum and pedagogy of Indian schools and higher education systems. It has added a new charm to learning with new leadership roles, constitutional values, national respect, and cultural awareness along with the incorporation of prerequisites such as human rights, ethical values, sustainable development along knowledge and skill upgrades for global well-being.

Features and Key Focus Areas

The most talked about provision under NEP 2020 is the replacement of the traditional 10+2 school system along with the incorporation of children in the 3-6 years age group formally under education policy. **The new policy has substituted the 10+2 system with a 5+3+3+4 structure** to bring early childhood care into its ambit for improved learning outcomes and lifelong development and well-being of students. The changes are coherent with the critical fact that **more than 85% of the total brain development of a child takes place before the age of 6 years.**

Salient Features of NEP 2020

This **policy is based on the recommendation of the Kasturirangam Committee** to bring reform at various levels of learning and teaching along with revamping the exam system. The further increase in GER in the Indian education system posts Sarva Siksha Abhiyan and the Right to Education Act, 2002 has needed an extra policy push to achieve universal access to quality education in India up to the secondary level. The policy has welcomed the active confluence of knowledge-based education with skill enhancement by especially encountering the silos mentality in the school education system.

Key Focus Area

01	Early Childhood Care and Education	14	Foundational Literacy and Numeracy
02	Curtailing dropout Rates and Ensuring Universal Access to Education at all levels	15	Professional Standard for Teachers and special Educators
03	Equitable and Inclusive Education: Learning for all	16	Efficient Resourcing and Effective Governance through School complexes/Clusters
04	Standard-setting and Accreditation for school education	17	Quality Universities and Colleges: A new and forward-looking vision for India's Higher Education System
05	Institutional Restructuring and consolidation	18	Towards a more holistic and multi disciplinary education
06	Optimal learning environment and support for students	19	Internationalization of Indian Education System
07	Motivated, Energized, and Capable Faculty	20	Equity and Inclusion in Higher Education
08	Teacher Education	21	Reimagining Vocational Education
09	Catalyzing Quality Academic Research through New National Research Foundation	22	Transforming the regulatory system of higher education
10	Effective governance and leadership for higher education institutions	23	Professional Education
11	Adult Education and lifelong learning	24	Promotion of Indian languages, arts, and culture
12	Technology use and integration	25	Online and digital education to ensure equitable use of technology
13	Creating dedicated unit for developing world-class digital infrastructure for education	26	Strengthening the central advisory board of education
27		Access to affordable and quality education for all	

The provisions under **NEP 2020** have aimed to bring over 20 million dropout children back to the schooling system with various provisions such as the promotion of multi-linguism in education, the provision of Special Education Zones for children in disadvantaged regions as well as groups, the establishment of Gender Inclusion Fund to ensure equal opportunities for girls and transgender students, etc. This has also promised international exposure in the areas of higher education, research, and innovation by setting up the campuses of top foreign universities in India to make the education system more open and adaptable for competitive efficiencies.

Sarva Shiksha Abhiyan

A Complete Guide

Growth Opportunities and Potential Concerns

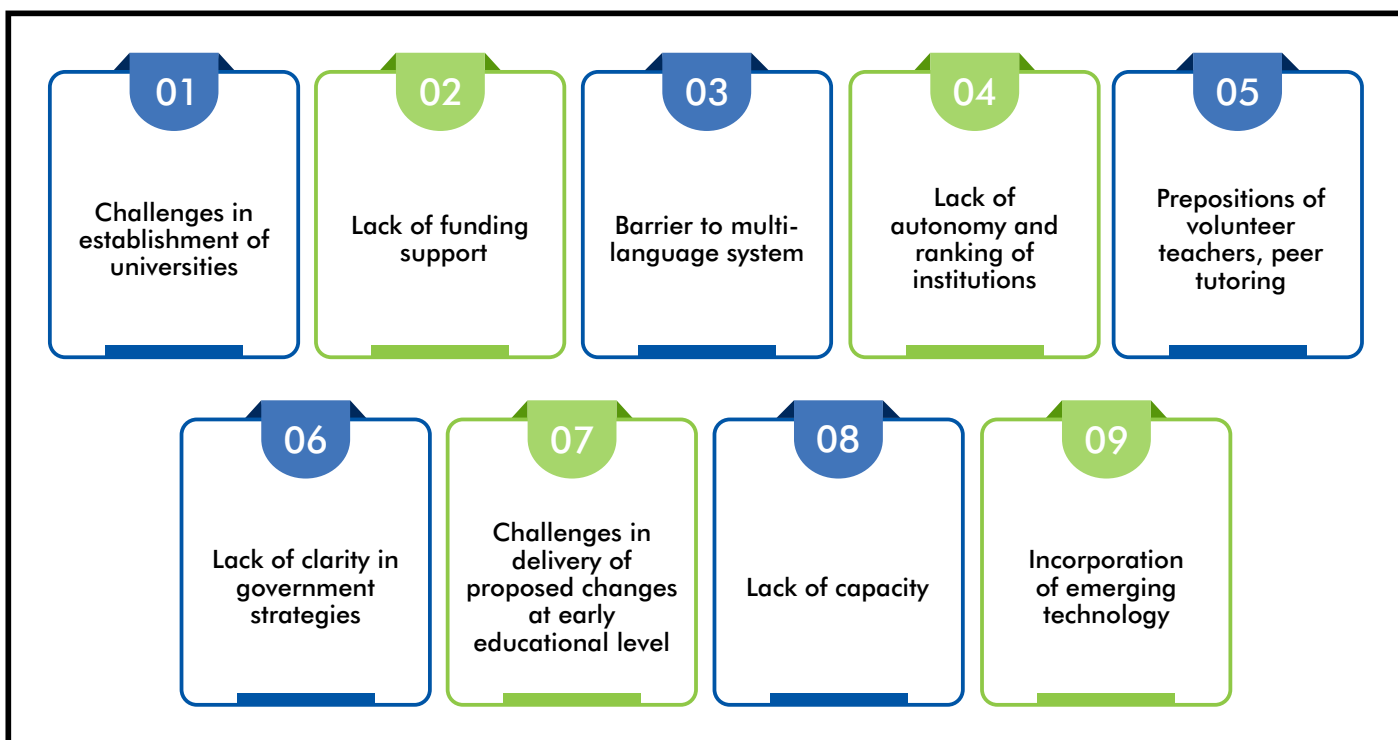

NEP 2020 has set a progressive path for learning and teaching in the Indian education system to make India future-ready. Its implementation and broad structural guidelines are promising new opportunities for various stakeholders such as government, education institutions, private investors, researchers, technology partners, teachers, trainers, and students. The increasing budget allocation promotes uninterrupted lifelong learning within education structures defined by reformed regulations.

Major Growth Opportunities	Largest demography	Second largest E-learning market in the globe
	Increasing total enrollment ratio	Gap between knowledge & skill training and job requirements
	Increased public spending target	Improved budgetary efficiency
	Supportive environment with ease of starting and running HEIs	Increased research funding
	Better access to basic infrastructure	New and progressive career advancement opportunities
	Self placed study through digitally scored credits	Global Exchange Programmes and setting up of foreign university campuses in India
	Industry-Academia partnership to promote technology 4.0 and innovation	Expert support from private sector in Establishing and Operationalizing National Educational Technology Forum

The government is gradually implementing the various provisions of policy at various levels. The priority focus areas are implemented on an immediate basis following the potential provisions with the help of various stakeholders and service partners. However, there are so many aspects that this policy has faced challenges to address at the formulation as well as implementation levels

Major Challenges in the Way of NEP 2020

Thus, this comprehensive policy brought new possibilities for the future along with the challenges to incorporate and deliver in their true sense. But during implementation, the stakeholders need to review the progress and its implications such as peer pressure, and the psychological well-being of students with the help of volunteer teachers, psychologists, peer-tutoring, and encouragement to inculcate interest towards learning and skilling to play a contributor in Indian growth saga.

Akhil Bhartiya Shiksha Samagam 2023 and 3rd Anniversary of NEP 2020

In **2023**, the **Akhil Bhartiya Shiksha Samagam** coincided with the **3rd anniversary of NEP 2020**. This has given a platform to various experts from education, research, and industry to share their best practices, strategies, success stories, and knowledge to add more colors to the transforming landscape of the Indian education system post-policy rollout. **It has been witnessed by more than 2 lakh Samagam attendees** including students, volunteers, and Yuva Sangam participants along with higher dignitaries.

The 'Mahakumbh of Education' has given an open stage to discuss and nurture the various strategies to help in converting the National Curriculum Framework (NCF) into textbooks to support lifelong learning. The government has also shown its unfailing commitment towards **capacity building of teachers on priority with the development of 100 institutions as Centre of Excellence in each category of school education, higher education, and skill development** respectively. It has made the anniversary celebration more attractive and strengthened India's commitment to imparting and facilitating equitable and critical learning opportunities to students for transforming Atmanirbhar Bharat.

Notable Achievements and Supporting Government Initiatives

To nurture the little igniting minds and youths of the country, the Government of India is working relentlessly to revamp the Indian education system at all levels. This has been taking shape over time with the help of industry-academia partnerships, promotion of skill development, and research through various government schemes such as **PM SHRI, a primary laboratory for the implementation of various NEP 2020 provisions** along with other initiatives such as NIPUN Bharat, ULLAS, New India Literacy Programme, etc.

Initiatives Launched to Support Implementation of NEP 2020

The focused approach to address the learning vulnerabilities of disadvantaged groups, transgenders, girls, etc is adding a humane face to **the policy implementation and hopeful to bring positive changes in terms of higher GER**. The skill development in regional languages along with technology education has a lot to unfold and make Indian students equipped with global competence side by side. Other than this, in the last three years since the launch of NEP in 2020, many achievements have also been made to testify to the smooth and gradual implementation of various provisions of education and skilling.

Achievements Highlights

Integration of vocational education into general education through government initiatives such as Pradhan Mantri Kaushal Vikas Yojna and Skill India Mission

Focus on holistic and employability skills with the launch of employability skills curriculum by MSDE

Skilling in regional languages for the promotion of linguistic diversity through publication of 100 books in Bhartiya Bhasha which is translated in 12 regional languages

Technology enabled learning with development of more than 330 new generation courses by MSDE to meet the requirement of industry 4.0

Industry academic collaboration for the introduction of on the job components in various customized courses

Reskilling and upskilling with the critical needs of 21st century through PMKVY 4.0

Inclusive and sustainable skill development through PMKVY, Jan Sikshan Sansthan, and SANKALP initiatives

Entrepreneurship education under skill India Mission through NIESBUD , NIOS, and IGNOU centers

Continuous teacher training and professional development through 59 new government institute of training of teachers under NSQF compliance and strive initiative

Launch of Agnipath Scheme in line with UGC Norms and guidelines of NCF and NSQF

Academic collaboration between Indian and foreign higher educational institutions through provision of twinning/ joint degree and dual degree programme

AICTE-IDEA labs to encourage STEM experimental learning

Engaging national hackathon such as KAVACH 2023 to identify innovative ideas and technology solutions

Guidelines notification for introduction of course based on Indian heritage and culture to promote the interest of foreigners on Indian heritage and culture

The **implementation of the policy has been aggressively supported by the Ministry of Skill Development and Entrepreneurship (MSDE) and Skill India Mission** with the provisions of various initiatives such as Pradhan Mantri Kaushal Vikas Yojna, National Apprenticeship Promotion Scheme, etc. The **provisions of setting UGC norms and NCF/ NSQF guidelines to align with the Agnipath Scheme of the Government of India** have also opened new avenues of opportunities to Indian youth for learning along with skilling and jobs. This will facilitate the holistic growth of India with a motivated, disciplined, educated, and technologically equipped brigade of youth with the help of **interministerial coordination between education, skills, and labour** to take the lead.

Way Ahead

The policy has promised a brighter, more flexible, multi disciplinary, and technology-oriented future for the Indian education system. It is providing the required policy support to make India a global knowledge hub and help in attaining the SDG goals within set timelines. It has opened up a new avenue of collaborative reforms in the sector through strengthening the spirit of cooperative federalism as education is a concurrent subject under the Constitution of India.

The policy is capable of addressing India's digital divide and regional literacy gaps by targeting universalization of education at all levels through provisions of Credit Framework, and mobility between traditional and vocational education. This will make it more result-oriented and make Indian students future-ready based on their passion and interest. It will develop a new generation of learned youths with critical thinking for the socio-economic growth of the country in the years to come.

Expert's Insight

The NEP 2020 is the future of India's education from primary to higher education levels. It aims at promoting the all-round development of an individual. It aims to make education accessible to everyone. India's academic fraternities have a big role to play in ensuring a rightful place for India to become a global leader. The National Education Policy 2020 is a path towards it.

Shri Dharmendra Pradhan
Minister of Education
Government of India
