

INDIA-SWEDEN JOINT ACTION PLAN 2026-2030

01

OVERVIEW

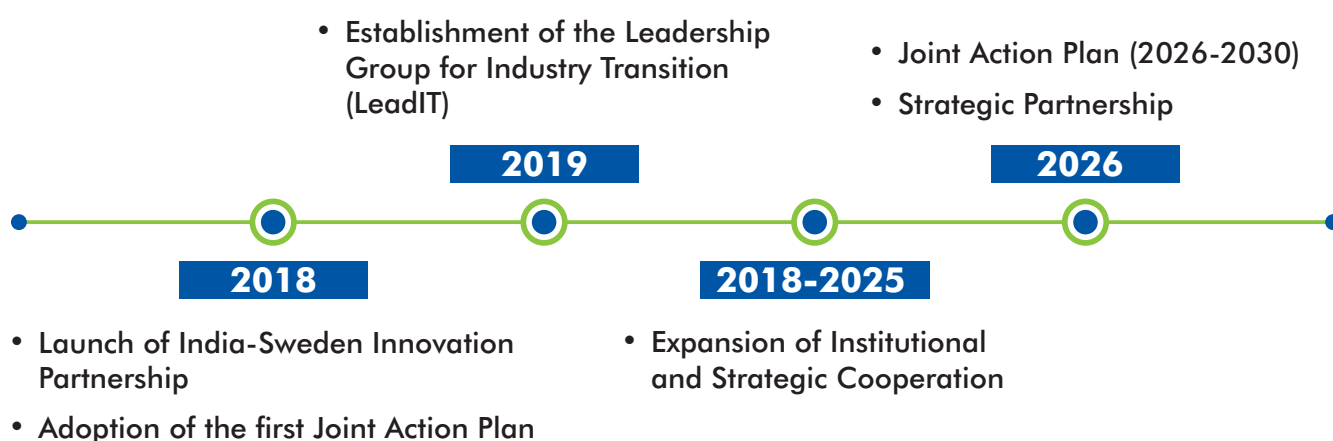

The **India–Sweden Joint Action Plan (2026–2030)**, adopted during the **India–Sweden Summit** held in Gothenburg, Sweden, on **18 May 2026**, marks a significant milestone in bilateral relations by providing the implementation framework for the newly established **India–Sweden Strategic Partnership**. This five-year Action Plan establishes a roadmap for strengthening institutional cooperation, enhancing policy coordination and translating strategic priorities into concrete outcomes.

The plan represents the culmination of nearly a decade of expanding cooperation. Building upon earlier institutional initiatives, it **consolidates previous bilateral achievements within a unified policy architecture** for implementing the partnership. In doing so, it enhances continuity and coherence in policy engagement.

Source: <https://www.government.se/articles/2026/05/sweden-and-india-broaden-and-deepen-strategic-cooperation/>

KEY MILESTONES TO THE INDIA–SWEDEN JOINT ACTION PLAN (2026–2030)

Rather than introducing an entirely new institutional arrangement, **the framework establishes clear governance mechanisms, implementation processes, and periodic review arrangements** to facilitate effective execution of jointly agreed priorities. This structured approach strengthens accountability and improves implementation effectiveness throughout the partnership.

Source: https://www.pmindia.gov.in/en/news_updates/pm-holds-bilateral-talks-with-prime-minister-of-sweden/

The plan also reflects the shared recognition that **evolving global challenges require stronger institutional engagement, regular policy dialogue and coordinated policy action**. Through structured mechanisms for collaboration, it enables both countries to respond more effectively to contemporary priorities.

Source: <https://asiaone.co.in/india-and-sweden-seal-strategic-partnership-deal/>

The five-year Action Plan provides the institutional foundation for implementing the Strategic Partnership. **It represents an important milestone in the evolution of relations between the countries** while underscoring their shared commitment to sustained strategic engagement through institutionalized cooperation.

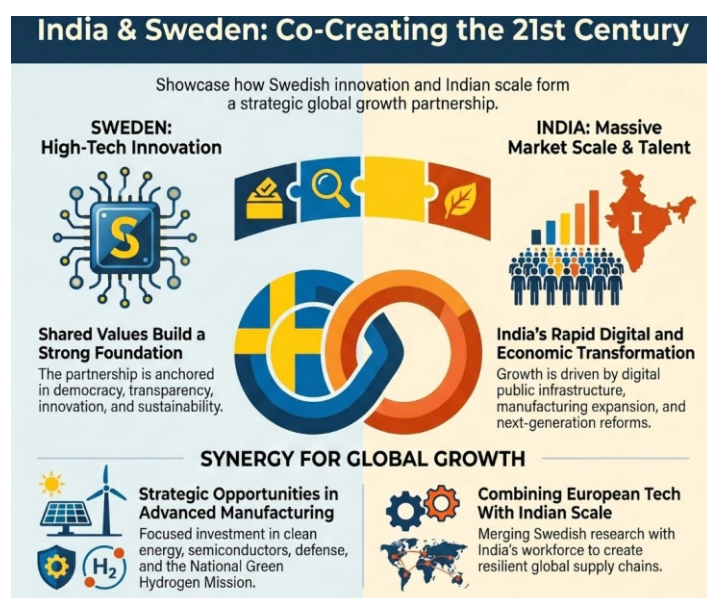

02

STRATEGIC IMPORTANCE OF THE INDIA-SWEDEN JOINT ACTION PLAN

An increasingly uncertain international environment, characterised by geopolitical competition, economic realignments and complex transnational challenges, has reinforced the importance of trusted bilateral partnerships. Against this backdrop, the India–Sweden Joint Action Plan (2026–2030) assumes strategic significance by **supporting a long-term partnership founded on mutual confidence, shared interests and sustained political commitment.**

Source: <https://www.newsx.com/world/india-sweden-relations-get-industry-boost-ahead-of-pm-modis-sweden-visit-220227/>

Source: <https://www.eij.news/post/a-partnership-of-ideas-technology-innovation-and-co-creation-pm-modi-s-sweden-visit-sharpens-in>

For India, the Strategic Partnership strengthens engagement with a reliable European partner while broadening its network of trusted international relationships. It also supports India's broader objective of diversifying external partnerships and deepening long-term diplomatic engagement with like-minded countries in an evolving global environment.

For Sweden, the Strategic Partnership provides a stable platform for expanding relations with one of the world's fastest-growing major economies. Strengthening cooperation with India enhances Sweden's long-term

engagement with an increasingly influential global partner while creating greater opportunities for sustained collaboration on issues of mutual interest.

CORE ATTRIBUTES OF THE INDIA-SWEDEN PARTNERSHIP

Shared Democratic Values

Foundation of bilateral cooperation

Complementary Strengths

Mutual economic and technological capabilities

Long-term Strategic Vision

Sustained policy coordination

Rules-based International Order

Commitment to multilateral cooperation

The Strategic Partnership also demonstrates the **growing importance of sustained political engagement in addressing challenges that increasingly require coordinated international responses**. By reinforcing mutual confidence and a shared long-term vision, it enables both countries to pursue common interests through a more resilient and enduring bilateral relationship.

Source: <https://english.gujaratsamachar.com/news/international/pm-modis-sweden-visit-strengthens-indiaeu-tech-and-trade-ties-38447607439.html>

More broadly, the Joint Action Plan represents more than a framework for bilateral cooperation; it **reflects the strategic evolution of India-Sweden relations**. By strengthening political commitment, broadening strategic engagement and reinforcing mutual trust, it establishes a durable foundation for a partnership capable of adapting to future international opportunities and emerging challenges.

03

KEY PILLARS OF THE JOINT ACTION PLAN (2026-2030)

The India-Sweden Joint Action Plan (2026–2030) identifies four key pillars that define the principal areas of cooperation between the two countries. These pillars organize bilateral priorities into broad fields of engagement, enabling diverse policy objectives to be pursued through clearly identified thematic areas. Together, they establish the principal directions through which India and Sweden intend to advance cooperation during the 2026–2030 period.

The first pillar, **Strategic Dialogue for Stability and Security**, places strategic dialogue and security cooperation at the centre of bilateral engagement by providing a dedicated platform for consultations on regional, global and security-related issues.

The second pillar, **A Next-Generation Economic Partnership**, establishes economic and industrial cooperation as a distinct pillar, reflecting the shared commitment of both governments to strengthening economic engagement as an integral component of the bilateral relationship.

Source: <https://www.eij.news/post/a-partnership-of-ideas-technology-innovation-and-co-creation-pm-modi-s-sweden-visit-sharpens-in>

Source: <https://www.constructionworld.in/policy-updates-and-economic-news/india-and-sweden-deepen-ai-partnership-through-sitac/87213>

The third pillar, **Emerging Technologies and Trusted Connectivity**, identifies technological cooperation and trusted digital connectivity as priority areas for future-oriented collaboration. The fourth pillar, **Shaping Tomorrow Together: People, Planet and Resilience**, brings together sustainability, environmental responsibility, resilience and people-to-people cooperation within a common thematic pillar, thereby broadening the scope of bilateral engagement beyond traditional policy domains.

FOUR PILLARS OF THE ACTION PLAN (2026-2030)

Strategic Dialogue
for Stability and
Security

A Next-
Generation Economic
Partnership

Emerging
Technologies and
Trusted Connectivity

Shaping Tomorrow
Together: People,
Planet and Resilience

A distinguishing feature of the Joint Action Plan is that its **four pillars collectively encompass both established and emerging dimensions of India-Sweden cooperation**. Strategic dialogue and economic engagement are complemented by technology, sustainability and societal resilience, ensuring a balanced policy agenda across multiple sectors of mutual interest.

Source: <https://ca.scoreclever.com/current-affairs/india-sweden-strategic-partnership-modi-visit/>

Thus, the four pillars provide a concise thematic representation of the India-Sweden Joint Action Plan (2026-2030). While each pillar addresses a distinct area of cooperation, **together they present a coherent framework that guides the principal policy priorities agreed upon by India and Sweden** for the five-year implementation period.

04

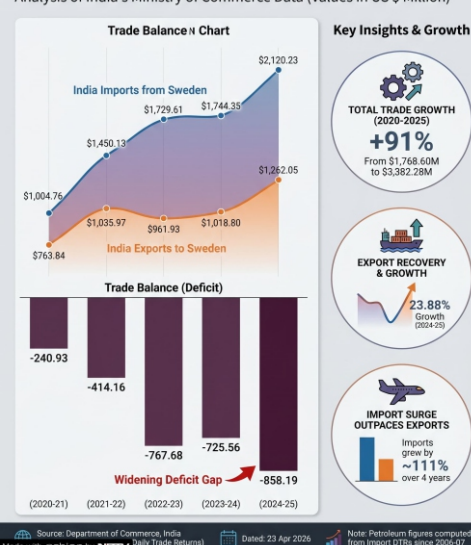

ECONOMIC AND INDUSTRIAL COOPERATION

Economic and industrial cooperation forms a central pillar of the India–Sweden Joint Action Plan (2026–2030) under **A Next-Generation Economic Partnership**. The Action Plan seeks to deepen bilateral economic engagement by expanding trade, encouraging investment and strengthening industrial partnerships. It reflects the **shared objective of fostering a competitive and resilient economic relationship** that extends beyond traditional commercial exchanges.

Trade and investment constitute the foundation of this pillar. The Action Plan promotes measures to facilitate bilateral commerce, improve investment opportunities and strengthen collaboration among governments, businesses and industry organizations. Together, these commitments create a **more favourable environment for commercial engagement while encouraging greater participation by enterprises from both countries**.

India-Sweden Trade (2020-2025): Growing Volume, Widening Deficit

Analysis of India's Ministry of Commerce Data (Values in US \$ Million)

Source: <https://www.ndtv.com/world-news/pm-modi5nationvisitswedenstrategicpartnerindiaexports-highest-honour-bilateral-trade-11510759>

INDIA - SWEDEN

TOP EXPORT & IMPORT COMMODITIES (FY 2025-26)

(April 2025 - March 2026) | Value in US\$ Million

INDIA'S TOP EXPORTS TO SWEDEN			
Rank	HS Code	Commodity	Value in US\$ Million
1	85	Electrical machinery and equipment and parts thereof.	272.89
2	84	Nuclear reactors, boilers, machinery and mechanical appliances.	163.20
3	62	Articles of apparel and clothing accessories, not knitted or crocheted.	103.96
4	87	Vehicles other than railway or tramway rolling stock, and parts.	82.77
5	63	Other made-up textile articles; sets; worn clothing and worn textile articles; rags.	75.93

INDIA'S TOP IMPORTS FROM SWEDEN			
Rank	HS Code	Commodity	Value in US\$ Million
1	84	Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof.	401.53
2	74	Copper and articles thereof.	272.58
3	47	Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard.	192.67
4	72	Iron and steel.	180.56
5	85	Electrical machinery and equipment and parts thereof.	158.59

KEY INSIGHTS

Electrical machinery (HS 85) is India's top export to Sweden, while machinery (HS 84) leads India's imports.

India imports key raw materials like Copper (HS 74) and Pulp (HS 47) from Sweden.

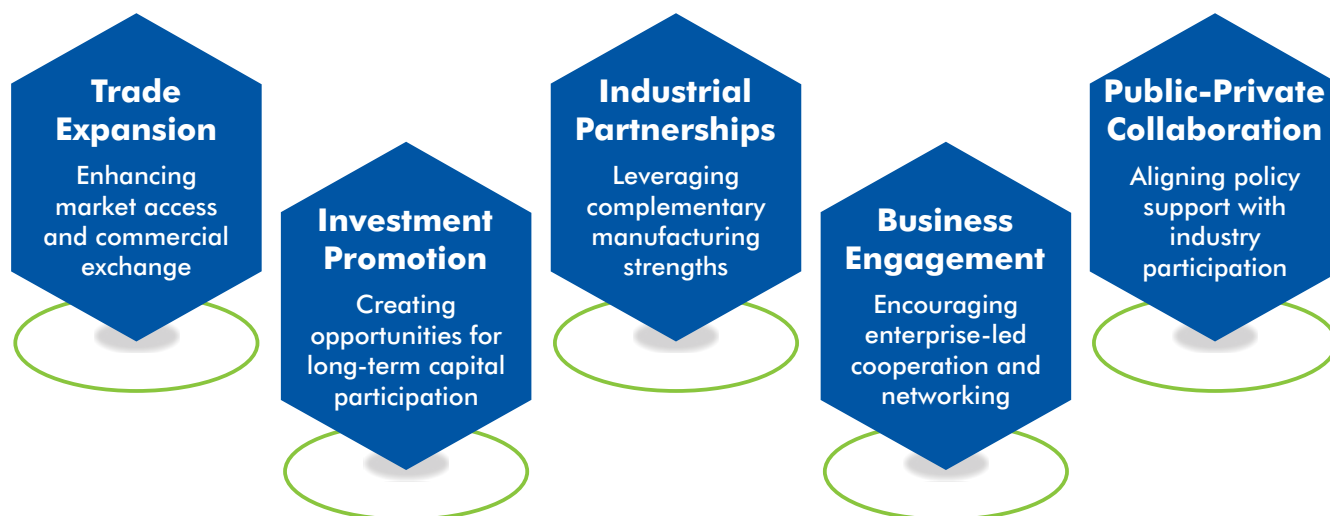

Strong two-way trade in machinery, metals and industrial goods supports growing India-Sweden partnership.

(Data for FY 2025-26: April 2025-March 2026)

Source: <https://www.india-briefing.com/news/india-sweden-strategic-partnership-business-opportunities-45022.html/>

A defining feature of the economic pillar is its emphasis on industrial cooperation. Drawing upon India's manufacturing capabilities and Sweden's expertise in advanced and sustainable industries, **the Action Plan promotes collaboration through industrial partnerships, clean manufacturing and sector-specific cooperation**. This approach broadens economic engagement beyond trade while creating new opportunities for enterprises in both countries.

KEY COMPONENTS OF THE ECONOMIC PARTNERSHIP

A distinctive aspect of India–Sweden economic cooperation lies in its **emphasis on close interaction among governments, industry and the private sector**. By combining policy support with business-led partnerships and sectoral collaboration, the economic pillar provides a practical platform for expanding commercial and industrial engagement.

Source: <https://www.india-briefing.com/news/india-sweden-strategic-partnership-business-opportunities-45022.html/>

The economic pillar establishes a coherent foundation for strengthening trade, investment and industrial cooperation between India and Sweden. Through coordinated economic initiatives and stronger industry partnerships, **it reinforces the long-term resilience and competitiveness of the bilateral economic relationship** during the 2026–2030 implementation period.

India–Sweden Clean Energy Ties: *Five Key Things to Know*

05

TECHNOLOGY, INNOVATION AND GREEN TRANSITION

The India–Sweden Joint Action Plan (2026–2030) prioritises **cooperation in emerging technologies, trusted connectivity and sustainable innovation** as integral components of the bilateral partnership. Through commitments spanning digital transformation, research collaboration and the green transition, the Action Plan expands bilateral engagement into rapidly evolving technological domains.

Source: <https://www.tarento.com/news/india-sweden-strategic-partnership-tarento/>

The technology pillar promotes cooperation in artificial intelligence, critical and emerging technologies, trusted connectivity and digital innovation. It also encourages closer collaboration among governments, research institutions, universities and industry to accelerate research, innovation and the responsible application of advanced technologies. These commitments reflect the shared objective of developing trusted technological ecosystems capable of supporting long-term bilateral cooperation.

Source: <https://thecsuniverse.com/articles/india-sweden-strengthen-partnership-on-green-transition>

Green transition constitutes an equally important dimension of the partnership. The Action Plan encourages **collaboration in clean energy, green technologies, circular economy practices and climate innovation** to advance sustainable development and environmental resilience. By integrating technological advancement with sustainability objectives, both countries seek to promote innovation that contributes to low-carbon and resource-efficient growth.

CORE ELEMENTS OF TECHNOLOGY & GREEN COOPERATION

Artificial Intelligence

Promoting responsible AI applications

Trusted Connectivity

Enhancing secure digital infrastructure

Research Collaboration

Advancing joint scientific innovation

Green Technologies

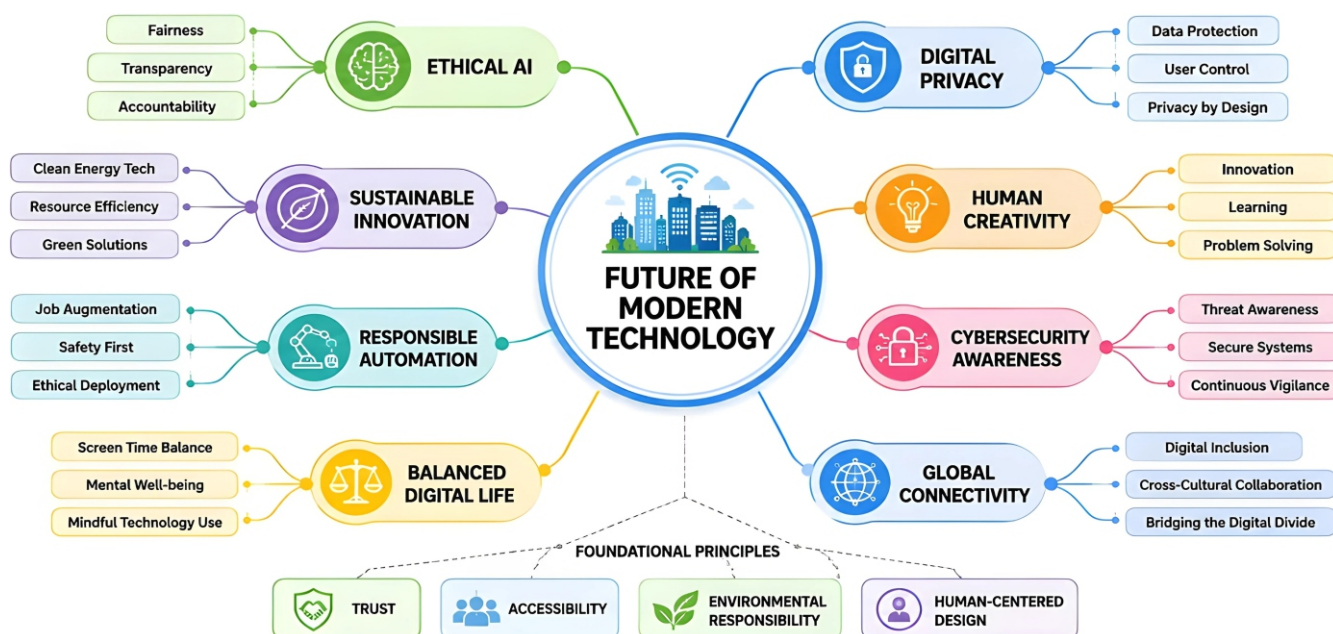

Supporting low-carbon technological solutions

Circular Economy

Fostering resource-efficient development

A notable feature of this pillar is the integration of research collaboration, trusted digital cooperation and sustainable innovation within a common framework. This approach strengthens partnerships among governments, academia, industry and research institutions while **encouraging the responsible development and application of emerging technologies**.

The Future of Modern Technology Depends on Responsible Innovation

Source: <https://medium.com/@ad.anupamdass/modern-technology-unveiled-the-foundations-of-our-digital-future-40ce9828a0be>

The technology pillar provides a coordinated platform for advancing cooperation in emerging technologies, research and sustainable innovation. **By integrating trusted digital collaboration with green transition initiatives**, it broadens the scope of the India–Sweden Strategic Partnership while reinforcing its future-oriented character.

06

DEFENCE, SECURITY, AND STRATEGIC COOPERATION

The evolving nature of regional and global security challenges has elevated the importance of sustained strategic dialogue within India–Sweden relations. Reflecting this changing security landscape, **the Joint Action Plan (2026–2030) promotes cooperation in defence, security and strategic affairs through structured consultations and institutional engagement.** These commitments underscore the shared intention of both countries to address emerging security priorities through regular dialogue.

Source: <https://www.tribuneindia.com/news/top-headlines/india-sweden-aim-to-double-trade-elevate-ties-to-strategic-partnership/>

The Action Plan envisages closer cooperation in defence through institutional exchanges, strategic consultations and engagement among relevant agencies. These initiatives are intended to **deepen mutual understanding, facilitate the exchange of expertise and create opportunities for collaboration** on issues of shared strategic interest.

The scope of cooperation extends beyond traditional defence matters to include maritime security, cybersecurity and counter-terrorism. It also encourages coordination on regional and global developments while reaffirming the importance of international law, peaceful dispute resolution and effective multilateral cooperation. Collectively, **these priorities broaden the partnership's security agenda by addressing both established and emerging security challenges.**

Source: <https://www.isdp.eu/publication/india-sweden-strategic-compass-vol-4-no-4-july-august-2025/>

FRAMEWORK FOR DEFENCE & STRATEGIC COOPERATION

1. Building Mutual Trust	2. Enhancing Defence Relations	3. Addressing Shared Security Challenges	4. Expanding Global Coordination	5. Institutional Cooperation
Promoting sustained dialogue and institutional engagement	Strengthening defence exchanges and strategic consultations	Advancing cooperation on maritime, cyber and counter-terrorism issues	Supporting collaboration through multilateral engagement	Strengthening coordination among defence and security agencies

Rather than treating defence, security, and strategy dialogue as separate areas of engagement, the Joint Action Plan integrates them within a single policy pillar. **This approach brings together conventional and non-traditional security priorities** through sustained institutional interaction, enabling cooperation to develop in a coherent and coordinated manner.

Source: <https://www.etvbharat.com/en/international/explained-why-strategic-partnership-gives-new-depth-to-india-sweden-defence-cooperation-enn26051903388>

These commitments collectively define the principal areas through which India and Sweden intend to expand defence, security and strategic cooperation during the 2026–2030 period. They reinforce a **shared commitment to sustained dialogue, institutional engagement and practical collaboration** across conventional and emerging security domains.

07

MAJOR CHALLENGES AND IMPLEMENTATION ISSUES

The India–Sweden Joint Action Plan (2026–2030) provides a comprehensive framework for cooperation across economic development, technological innovation, green transition, defence and strategic engagement. While its broad scope strengthens bilateral cooperation, it also presents **significant challenges in coordinating and implementing diverse commitments within a single framework**.

One major challenge arises from the Action Plan's **integrated and cross-sectoral structure**. Advancing its economic, technological, sustainability and security priorities depends on effective coordination among governments, industry, academia and research institutions in both countries. **Maintaining policy coherence** across these interconnected areas may therefore present a significant implementation challenge.

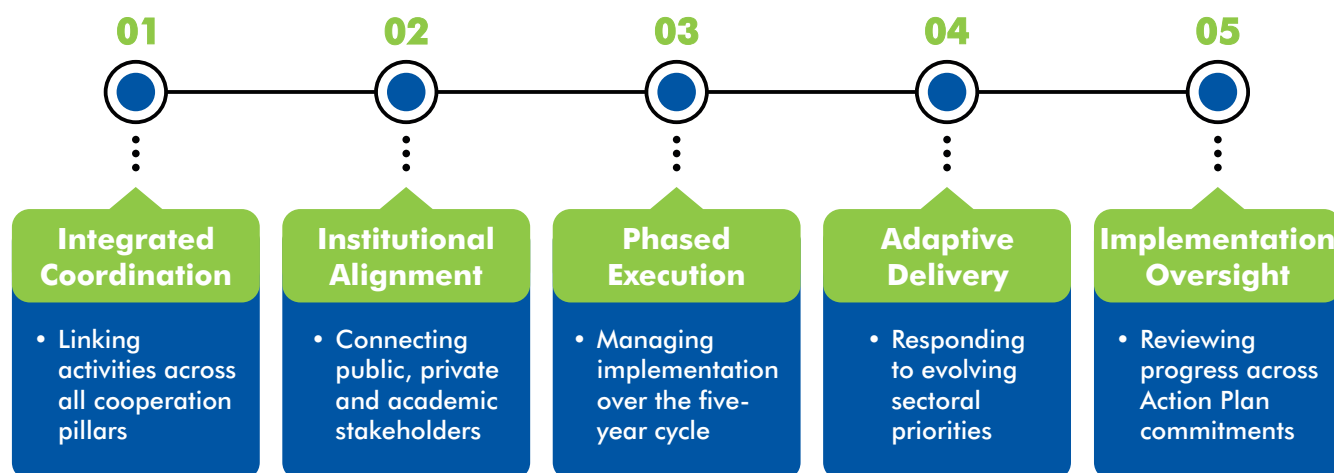

Source: <https://www.orfonline.org/expert-speak/india-sweden-relations-trajectory-strategic-convergence-scaling-new-heights>

Source: <https://crackittoday.com/current-affairs/india-and-sweden-deepen-ai-partnership/>

A second challenge stems from the Action Plan's **emphasis on rapidly evolving sectors such as artificial intelligence, digital transformation, trusted connectivity and green technologies**. As these priority areas continue to evolve, maintaining alignment with the Action Plan's long-term objectives will require continuous policy adaptation and institutional flexibility.

OPERATIONAL DIMENSIONS OF ACTION PLAN IMPLEMENTATION

While these represent the principal strategic challenges, **implementation also involves several operational considerations**. These include synchronising initiatives across the economic, technological, sustainability and security pillars, accommodating different implementation timelines, strengthening coordination among governments, industry, academia and research institutions, and ensuring continuity across interconnected programmes.

Source: <https://nbnewsnetwork.in/india-sweden-deepen-cooperation-in-ai-defence-and-green-transition/>

Successfully implementing the India-Sweden Joint Action Plan (2026-2030) will therefore depend on **sustained coordination, institutional adaptability and effective oversight across multiple sectors and stakeholders**. Addressing these challenges will be essential to translating the framework's long-term objectives into measurable outcomes.

08

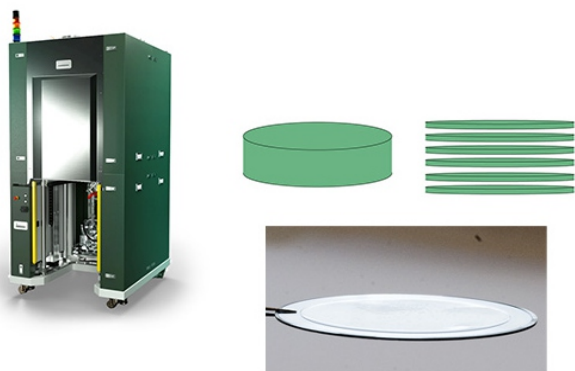

STRATEGIC IMPLICATIONS OF THE INDIA-SWEDEN JOINT ACTION PLAN (2026-2030)

The India–Sweden Joint Action Plan (2026–2030) reflects the transformation of bilateral relations from sector-specific cooperation to a more structured long-term partnership. By integrating economic, technological, sustainability and security priorities within a common policy framework, the Action Plan highlights the growing importance of coordinated strategic engagement in addressing contemporary global challenges.

For India, the Action Plan reflects a broader strategic approach to **expanding engagement with technologically advanced European partners**. It also underscores India's growing emphasis on innovation-driven diplomacy, resilient economic partnerships and technology-led international engagement as important dimensions of its external policy.

For Sweden, the Action Plan highlights **India's expanding strategic importance within its long-term engagement beyond Europe, particularly within the Indo-Pacific**. It also reflects Sweden's recognition of India's growing influence in technology, industrial development and sustainable economic transformation, reinforcing the value of deeper engagement with an emerging global partner.

STRATEGIC PERSPECTIVES OF THE JOINT ACTION PLAN

At the international level, the Action Plan demonstrates how **structured bilateral frameworks can strengthen the role of middle-power partnerships** in responding to evolving economic, technological and sustainability transitions. It also highlights the growing importance of policy convergence and collaborative frameworks in fostering resilient international partnerships.

Source: <https://www.etvbharat.com/en/international/explained-why-strategic-partnership-gives-new-depth-to-india-sweden-defence-cooperation-enn26051903388>

The strategic significance of the India–Sweden Joint Action Plan (2026–2030) lies in demonstrating that **enduring bilateral partnerships are increasingly shaped by policy convergence, technological capability and shared strategic interests** rather than conventional sector-specific cooperation. This evolution positions the India–Sweden partnership as a relevant model of contemporary international cooperation in a changing global environment.

09

WAY FORWARD

The long-term success of the India–Sweden Joint Action Plan (2026–2030) will depend on **translating its shared objectives into measurable outcomes** through sustained political commitment, institutional continuity and adaptive policy coordination. A forward-looking implementation approach will remain essential to ensuring the partnership's relevance amid evolving global priorities.

Source: <https://enterpriseam.com/mena-india/2026/05/18/india-sweden-upgrade-ties-to-expand-economic-cooperation/>

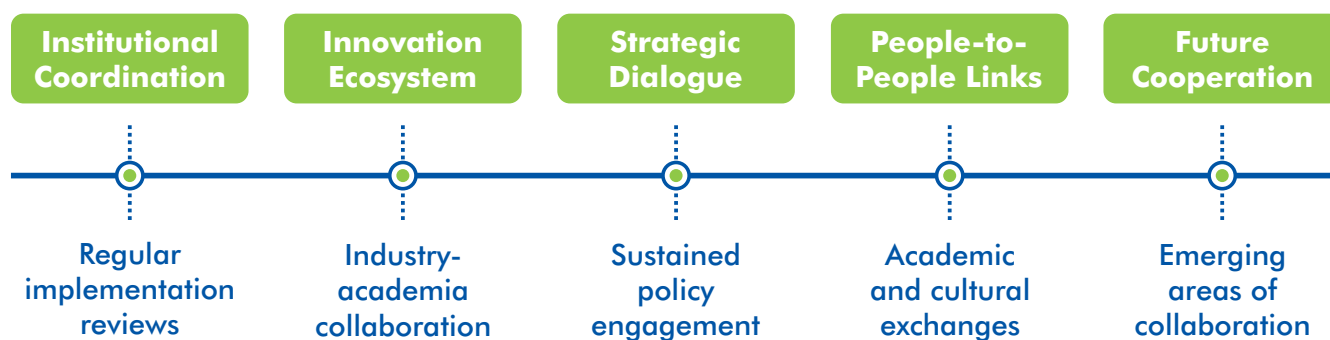

Both countries should strengthen implementation through a **structured framework incorporating measurable milestones, periodic progress evaluations and results-based monitoring**. Such mechanisms would enhance transparency, improve coordination and facilitate timely assessment of commitments outlined in the Joint Action Plan.

Source: <https://www.etvbharat.com/en/international/explained-why-strategic-partnership-gives-new-depth-to-india-sweden-defence-cooperation-enn26051903388>

Greater emphasis should also be placed on **developing collaborative financing mechanisms and delivery partnerships** to accelerate priority initiatives. These arrangements would strengthen accountability, improve implementation and ensure that agreed commitments generate measurable and sustainable results.

PRIORITIES FOR STRENGTHENING THE PARTNERSHIP

Regular high-level consultations, supported by flexible policy mechanisms, should enable both countries to respond effectively to emerging opportunities and evolving global challenges. Periodic review of priority areas would help keep the Joint Action Plan responsive to changing strategic and economic realities.

Source: <https://www.firstpost.com/world/india-sweden-elevate-ties-to-strategic-partnership-as-pm-modi-holds-talks-with-swedish-counterpart-14012219.html>

Sustained implementation, supported by effective governance and continuous policy coordination, will determine the long-term impact of the Joint Action Plan. By reinforcing institutional cooperation and adaptive implementation, India and Sweden can establish a durable foundation for advancing their Strategic Partnership beyond 2030.

10

EMINENT INSIGHT

"Sweden and India share a partnership shaped by more than a century of cooperation, trust and entrepreneurship. I am grateful for the strong ties that have brought us here today, and I am confident that our cooperation will continue to grow through innovation, sustainability and digital transformation. Together, we look ahead with optimism and a shared commitment to the future."

Ulf Kristersson
Prime Minister
Sweden
